

**CO-CURRICULAR AND INTERSCHOLASTIC  
STUDENT COMPETITIVE ACTIVITIES**

The School Board believes that a comprehensive program of co-curricular activities is an integral component of the total educational experience available to students in District 194.

The co-curricular program should represent the interests and desires of the students; conform to the standards established by the Minnesota State High School League; operate in accordance with applicable athletic conference policies; adhere to appropriate District policies; and operate within the resources available.

The co-curricular program shall provide for a balance of athletic and non-athletic activities. The program shall also provide for equivalent participation opportunities for students of both genders.

The Activities Director has been designated by the Superintendent to be responsible for the efficient and effective operation of the co-curricular program in grades 7-12. As part of that responsibility, the Activities Director shall provide the School Board with a periodic review of program participation and other information as requested.
