**About the Dave Oswald Homes
Scholarship Program**

Dave Oswald has a long history of leadership in school, business, church and community service. He demonstrated "Leadership You Can Count On" as a student body leader, young business owner, corporate executive, church elder and community volunteer. Today, his leadership, sales and negotiating skills have helped him build one of the most successful residential real estate practices in the Twin Cities. His clients know him as a committed, service-minded professional who leads them through the sometimes challenging home buying and selling process.

Through his own involvement and leadership, Dave has enjoyed the opportunities to work with and recognize student leaders in the community. He sees how, when young people choose to be positive role models and leaders, their community affirms that behavior. The

result: everybody wins. Communities are strengthened, individuals in need are better served and these young leaders are encouraged to be "servant leaders" for life.

But, as Dave knows from his own life experience, sometimes the young leaders we can count on aren't always the best students or top athletes. While there are many academic and athletic scholarships rewarding those skills, Dave sees the need to affirm and financially support the post-secondary education endeavors of our young, talented and committed leaders. Thus, the Dave Oswald Homes Scholarship Program began.
